*The abnormally high ratio of losses paid to premiums written for 1954 and 1955 reflects the extremely heavy losses sustained on extended coverage in Massachusetts because of the damage inflicted by hurricanes Carol and Edna in August and September 1954.

#Premiums written and losses paid for 1958 and subsequent years are on direct basis.

(footnotes cont.)

(1) Figures reported for 1958 and subsequent years include Homeowners Multiple Peril and Commercial Multiple Peril. Since the basis policy is a fire policy to which liability coverages are added by endorsement and for which an indivisible premium charge is made, segregation of fire and casualty is not possible.

** Statistics for 1954 and subsequent years include casualty and miscellaneous companies in addition to fire and marine companies.

CONCLUSION

The General Court in 1959 enacted legislation which expanded available coverage and further regulated insurance in the public behalf. An act authorizing the inclusion in motor vehicle liability policies of death and disability benefits and coverage for damage caused by the operation of uninsured motor vehicles filled an urgent need. Comparable progressive insurance legislation was enacted in other categories of insurance.

Pursuant to maximum attainment in the performance of duties and responsibilities, your Commissioner established and maintained adequate facilities to assure compliance with the Commonwealth's regulatory insurance laws and augmented same by serving on a number of committees of the National Association of Insurance Commissioners, an organization dedicated to promote uniformity in departmental rulings under the insurance laws of the several states; to disseminate information of value to insurance supervisory officials in the performance of their duties and to establish ways and means of fully protecting the interests of insurance holders in the various states of the United States.

Respectfully submitted,

Otis M. Whitney

*Statistics for 1954 and subsequent years include Casualty and Miscellaneous Companies in addition to Fire and Marine Companies.

**The abnormally high ratio of losses paid to premiums written for 1954 and 1955 reflect the extremely heavy losses sustained on extended coverage in Massachusetts because of the damage inflicted by hurricanes Carol and Edna in August and September 1954.

***Figures reported for 1958 and subsequent years include Homeowners Multiple Peril and Commercial Multiple Peril. Since the basic policy is a fire policy to which liability coverages are added by endorsement and for which an indivisible premium charge is made, segregation of fire and casualty is not possible.

#Premiums and losses for 1958 and subsequent years are on the direct basis.
